About Me

Detail-oriented QA Manual Tester with 3 years of experience in software testing and quality assurance. Experienced in test case development and execution, defect identification, and maintaining quality standards throughout the software development process. Proficient in functional, regression, end to end and usability testing of different platforms and devices. Sound understanding of testing practices, tools, and best practices, with a strong track record of working effectively with cross-functional teams to develop high-quality software products. Focused on continuous improvement and improving user experience through thorough testing and feedback.
